## **ONLINE GAMING ALERT**

---

Sands China Ltd. does not engage in online gaming activities of any kind. All websites and mobile applications using our trademarks (brands, names and logos), as well as messages and phone calls, purporting to offer online gaming are fake and should be reported to the relevant authorities immediately.

## **ALERT ON SUSPECTED FRAUDULENT TELEPHONE CALLS AND MESSAGES**

---

There have been recent incidences of fraudulent telephone calls and messages pertaining to the sales of our hotel packages. You should suspect fraud if you are contacted by someone offering any type of hotel room promotions in our properties requiring payment up-front or regarding offers that seem implausible.

Be aware of fake online hotel room resellers and do not purchase hotel rooms from other guests or from persons who you suspect being a guest reselling the room. For hotel and package reservations, you can book directly on our website.

Should you have any doubt regarding the legitimacy of a website or communication purportedly from Sands China or suspect fraud, please contact our customer service department.
