

Re: Procurement & Supply Chain – Sustainable Approach

Dear Suppliers and Service Providers,

Sands China Limited, including our subsidiaries and associated companies, has committed to minimize our impact to the environment and lead the way in sustainable development and resort operations. In order to support our commitment, Procurement & Supply Chain has undertaken various sustainable approaches and we would like to highlight some key initiatives as below.

- 1. Supplier/Contractor Selection**
Continuing from our best practices, we award a higher priority and preference to the suppliers/contractors who can demonstrate green effort in their products and services when all other selection criteria are equal.
- 2. Sustainable Sourcing**
As a key active member of the local society, we encourage our suppliers/contractors to produce, and our sourcing team members to source, products based on the “Recommended Green Product Specifications” established by the Macao Environmental Protection Bureau.
- 3. Sustainable Products and Services**
We prefer the purchase of sustainable products/services that are certified by recognized environmental logo/eco-label, official certificates and/or proper supporting documents.
- 4. Research and Cooperation**
All our team members are encouraged to work together with our suppliers/contractors to conduct research and identify sustainable and environmentally friendly products and services. At the same time, we also encourage our suppliers/contractors to suggest products and services that are environmentally friendly as alternatives.
- 5. Operation Process**
We encourage our suppliers/contractors to use green materials for production, decrease wastage during production, minimize greenhouse gas emissions / water consumption, reduce excess packaging, and lessen the environmental burden of transportation by supplying products from the nearest location or warehouse.

We look forward to your support with our sustainable approaches and initiatives. Should you have any questions, please feel free to contact your respective buyer.

Yours sincerely,

Charlie Cai
Vice President
Procurement and Supply Chain, Sands China Ltd.
